

It's easy being green

We all have a responsibility to make environmentally-friendly choices. Our thoughtful actions today benefit our employees, our community, and our families and children for generations to come.

Use these tips to reduce your impact on the environment:

-  **Recycle hazardous household materials and electronics waste**
-  **Ride RTD to and from work and meetings**
-  **Organize a carpool with co-workers**
-  **Ride a bike instead of driving**
-  **Avoid using styrofoam containers**
-  **Bring your own bags when you go shopping**
-  **Print digital files only when necessary**
-  **Avoid idling your car engine unnecessarily**

Reducing our impact on the environment is the right thing to do.
