

Environmental Justice Program

Catholic Charities, Diocese of Stockton

Stockton—Modesto—Sonora

Advocacy

To address pollution & climate change, especially as they impact poor & vulnerable communities.

Community

Partnerships with local residents & organizations to address health, equity & sustainability in the built environment.

Education

For parishioners & community on environmental justice and how to better care for God's Creation.

Help for Today... Hope for Tomorrow

The San Joaquin Healthy Neighborhoods Collaborative (Stockton) and the Stanislaus Sustainable Communities Coalition (Modesto) are partnering, educating, and advocating for neighborhoods that promote *health*, *equity*, and *sustainability* through:

- Air & Water Quality
- Affordable Housing
- Complete Streets
- Investment in Existing Neighborhoods
- Infill Growth
- Active Transportation
- Farmland Conservation
- Transit-Oriented Development

The Airport Neighborhood is one of Modesto's most disadvantaged. Like South Stockton, it lacks basic infrastructure like sidewalks, crosswalks, and street lights.

Catholic Charities' Programs Include:

- Healthcare Access
- Nutrition Assistance
- Immigration Legal Services
- Family Wellness
- Senior Services
- St. Anne's Place
- Services for Veterans & Families
- Environmental Justice
